Correction to: Inj Epidemiol (2020) 7:9 https://doi.org/10.1186/s40621-020-0235-6

Following publication of the original article (Chien et al. 2020), the authors identified two errors;

1) The equations were not adequately presented since they all Greek symbols disappeared in the PDF version of the article.

The correct presentation of the equations is given below.

$$Log(NP_t) = \alpha + \beta \times t + log(Total_t)$$
, where  $t=1,...,38$ 

$$\begin{split} Log(NP_{it}) &= \alpha + \alpha_{i(t)} + \beta_1 \times I(i=1) + \beta_2 \times I(i=2) \\ &+ f(t) + \ log(Total_{it}), \end{split}$$
 where  $i=1,2,3; t=1,...,38$ 

2) The grey horizontal lines were missing in Fig. 1. The correct figure is given below.

The original article (Chien et al. 2020) has been updated.
